Authority

Under the authority of the Safety Codes Act, Chapter S-1 section 38(1).

Application of variance

This variance applies throughout the province of Alberta.

This is a variance to sentence 5.2.3.1.(2) of the Alberta Private Sewage Systems Standard of Practice 2009 regarding tanks used for Packaged Treatment Plants being certified as meeting the structural and material requirements of the CAN/CSA-B66 standard for the "Design, Material, and Manufacturing Requirements for Prefabricated Septic Tanks and Sewage Holding Tanks." Based on engineered design and assessment provided in support of this variance and the adherence to CSA certification protocol applied to the manufacture of the tanks, the tanks manufactured by Consolidated Treatment Systems, inc. Ltd and used for the Nayadic M-Series wastewater treatment plants are considered to provide an equivalent level of safety with regard to structural sufficiency and water-tightness as intended by the Standard of Practice.

Details of Variance

This variance applies to Wastewater Treatment Plants identified as followings:
Nayadic M-Series

Design changes shall not be made to the tanks listed. Any design changes to the manufacture of the tanks listed require reapplication for a variance.

This variance does not make or imply any assurance or guarantee with respect to life expectancy, durability or performance of these tanks or treatment plants.
